SKILLS

Frontend

- HTML5, CSS3, JavaScript (ES6+)
- React.js, JSX, Component-Based Architecture
- Tailwind CSS, Bootstrap, Responsive Design, Material UI

Backend

- Node.js, Express.js
- RESTful API Development, Integration
- JWT (JSON Web Tokens), Token-Based Authentication
- CRUD Operations, MVC (Model-View-Controller) Architecture

Database

- MongoDB, Mongoose (ODM)
- Data Modeling, Schema Design, Query Optimization

ABOUT

MERN Stack Developer & Tech Creator with a focus on building efficient, user-centric web applications. Transitioning from a strong 5-year background in the pharmaceutical industry to Full-Stack development, I combine technical expertise in JavaScript with a professional work ethic and a knack for debugging complex problems.

WORK EXPERIENCE

Frontend Developer Intern (Remote) DevelopersHub Corporation

- UI/UX Implementation: Developed responsive and user-friendly web interfaces using React.js and Tailwind CSS, ensuring a seamless experience across all device sizes.
- Collaborative Development: Coordinated with the Team Lead under Agile methodology to manage tasks effectively and ensure consistent delivery within project deadlines.
- Debugging & Optimization: Identified and resolved real-world bugs and coding challenges to enhance application performance and maintain high code reliability.
- Modern Integration: Integrated RESTful APIs with the frontend and utilized advanced state management techniques for efficient dynamic data rendering.

Machine Operator | Atco Laboratories

2023 - Present

- Operational Excellence: Optimized machine efficiency and monitored high-speed production lines to ensure 100% adherence to pharmaceutical quality standards.
- Performance Monitoring: Conducted routine equipment performance checks and consistently achieved daily production targets through proactive maintenance and troubleshooting.

Senior Packing Worker | Atco Laboratories

2020 - 2023

- Quality Assurance: Supervised large-scale packaging and labeling operations with a strict focus on accuracy and regulatory compliance.
- Team Leadership: Led packing teams to meet high-volume daily targets, ensuring streamlined workflows and a safe working environment.

WORK EXPERIENCE

BS in Computer Science (BSCS)

Allama Iqbal Open University (AIOU) | 2026 - Present

- Focusing on Software Engineering principles, Data Structures, and Database Management Systems.
- Actively applying academic concepts to Full-Stack development using the MERN stack.

Tools & Deployment

- Git & GitHub (Branching, Pull Requests)
- API Testing: Postman
- Vercel, Netlify, Render, MongoDB Atlas, Railway
- VS Code, Vite, NPM/Yarn
- Debugging, Performance Optimization, Team Collaboration

LANGUAGE

English
Urdu

Intermediate in Commerce

Govt. Boys College Asifabad | 2021 – 2023

- Developed strong analytical and professional communication skills through business and financial studies.

Matriculation (Computer Science)

Liberal Model School | 2018 – 2020

- Established a foundational understanding of computer logic, programming fundamentals, and information technology.

Professional Soft Skills

Leadership & Mentorship

- Demonstrated strong leadership during 5+ years of industrial experience by managing teams and mentoring junior staff to maintain high-quality production standards.

Teamwork & Collaboration

- Proven ability to prioritize tasks and meet tight deadlines, successfully balancing a technical internship, full-stack projects, and academic commitments (BSCS).

Time Management

- Experienced in collaborating with remote, cross-functional teams (Designers & Developers) at DevelopersHub to ensure seamless project execution.

Effective Communication

- Skilled in articulating complex technical concepts clearly, a skill further refined through creating educational coding content and social media reels.

Critical Thinking

- Adept at analyzing complex bugs and operational challenges to implement logical, efficient, and scalable solutions.

Projects Section (Professional Layout)

Personal Projects

OptiClinic (AI-Powered Clinic Management)

- A Full-Stack MERN application for healthcare management, featuring role-based access control, appointment scheduling, and patient record tracking.

Full-Stack E-Commerce Website

- Developed a complete shopping experience with Node.js/Express backend, MongoDB database, and secure payment/checkout flow.

MERN Todo-List

- A robust task management tool featuring CRUD operations, user authentication, and real-time data persistence.

Technical Portfolio & Components

- Created various utility apps including a React Calculator, a dynamic Collection Page, and custom reusable UI components.
